Professional Summary

Full-Stack Developer skilled in React.js, Node.js, MongoDB, secure REST APIs, and scalable web applications. Proficient in serverless backend architecture, Vercel Functions, Java, DBMS, OOPs, and problem solving.

Technical Skills

Languages: Java, Python, JavaScript, TypeScript
Frontend: HTML/CSS, React.js, Next.js, Tailwind CSS, Material-UI
Backend: Node.js, Express.js, FastAPI, REST APIs, Spring Boot
Databases: SQLite, MySQL, MongoDB, PostgreSQL
Tools: Git, GitHub, Docker, VSCode, Postman
Core Subjects: DBMS, OOPs, AI & ML, Operating Systems, Data Structures and Algorithms

Experience

Full-Stack Developer Intern May 2026 - Present

PraNaga Private Limited

- Led frontend development for business web applications, building responsive user interfaces and implementing scalable, high-performance application modules.
- Collaborated with development teams to support project execution, feature delivery, workflow coordination, and timely milestone completion across development cycles.
- Integrated REST APIs to enable seamless frontend-backend communication and reliable data management workflows.
- Performed testing, debugging, and performance optimization to improve application reliability and user experience.

Full-Stack Developer Intern - Certificate | GitHub February 2025 - March 2025

EY Global Delivery Services (EY GDS)

- Created a MERN-based recipe sharing platform enabling users to create, browse, and interact with content through a structured React.js and Node.js application.
- Enhanced API efficiency and data handling by implementing optimized REST endpoints and streamlined request processing, improving response time by 15%.
- Applied secure authentication workflows using JWT to manage user sessions and protect access to application resources.
- Refactored reusable components and backend routes, improving code maintainability and reducing redundancy by 5%.

Projects

Deploy.AI - Zero to Production AI Web Forge & Launch Engine | GitHub → (Live Demo)

- Engineered an LLM-powered MERN stack platform integrating OpenRouter API to transform natural language prompts into fully functional, production-ready websites with real-time preview and one-click live deployment.
- **Tech:** React.js, Node.js, Express.js, MongoDB, OpenRouter LLM API, Netlify REST API, Web Crypto API

WorkLoom - Real-Time Freelance Collaboration Platform | GitHub → (Live Demo)

- Built a WebSocket-based freelance collaboration platform where users post projects, bid on work, and collaborate through real-time updates and secure payments using WebSockets and Stripe.
- **Tech:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Socket.io, Stripe API, REST APIs

GetHired - Talent Acquisition & Recruitment Platform | GitHub → (Live Demo)

- Delivered a full-stack recruitment platform with role-based access control enabling recruiters to post jobs, apply for roles, track candidate pipelines, and manage end-to-end application workflows via secure REST APIs.
- **Tech:** React.js, Node.js, Express.js, MongoDB Atlas, JWT Authentication, Role-Based Access Control

Education

Malla Reddy College of Engineering and Technology Hyderabad, Telangana

B.Tech in Computer Science and Engineering (AI & ML), GPA: 8.76/10 *2022 - 2026*

Deeksha Junior College Hyderabad, Telangana

Senior Secondary Education, Percentage: 87.6% *2020 - 2022*

Certifications

- AWS Machine Learning Foundations & Cloud Foundations - **AWS Academy Graduate**
- Data Structures and Management with MySQL - **Meta**
- Test-Driven Development in Java - **Coursera**
